

Don't Let Unsafe Conditions & acts Trip You Up!

1. Which of the following is a safe work practice?
 - a. Bob made coffee for everyone that morning but accidentally spilled some on the floor. He was called away from the breakroom before he could clean up the mess.
 - b. Jose put in his earbuds, turned up the music, and began to mop. The caution sign was still in his cart.
 - c. Jane placed her smart phone in her bag as she walked to the meeting.
 - d. Marcia flicked the light switch and the light flickered and went out. She walked down the hallway anyway since she knew where she was going.
2. Which of the following is a risky or unsafe behavior?
 - a. Taking a shortcut.
 - b. Taking each step on the stairs one at a time.
 - c. Hanging on to the handrails going down the stairs.
 - d. Paying attention to your surroundings
3. Administrative and engineering controls do little to prevent slips, trips and falls in the workplace.
☐ True ☐ False
4. Slips, trips and falls are the second leading cause of workplace deaths, next to traffic incidents.
☐ True ☐ False

What Would You Do?

It's a rainy day and when you walk into work you notice the floor is wet from people's wet shoes and wet umbrellas. In fact, you almost slipped and fell. What would you do next?
